

Editor's Comment:

I have seen and cross-checked the reviewer's comments and Authors' amendments that have been incorporated on the manuscript titled:

A Comparative Diagnosis of Urinary Schistosomiasis in Patients from Primary Healthcare Centers in Keffi, North Central Nigeria, using Microscopy and PCR.

Therefore, to me it would be better to be accepted for publication.

Editor's Details:

Dr. Damtew Bekele Eressi
Assistant Professor, College of Natural and Computational Sciences, Ambo University, Ethiopia.
