

**Review Form 1.7**

Journal Name:	<b>Asian Journal of Biotechnology and Bioresource Technology</b>
Manuscript Number:	<b>Ms_AJB2T_114509</b>
Title of the Manuscript:	<b>EFFECTS OF COMMERCIAL FEEDING WITH DIFFERENT PROTEINS ON THE GROWTH OF G6 TRANSGENIC MUTIARA CATFISH IN BUDIKDAMBER REARING</b>
Type of the Article	

**Review Form 1.7**

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <ol style="list-style-type: none"> <li><b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</li> <li><b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</li> <li><b>Is the abstract of the article comprehensive?</b></li> <li><b>Are subsections and structure of the manuscript appropriate?</b></li> <li><b>Do you think the manuscript is scientifically correct?</b></li> <li><b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></li> </ol> <p><b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b></p>	<ul style="list-style-type: none"> <li>- Although the statistical methods employed are mentioned, there is a lack of detail regarding the specific statistical tests used to analyze the data. It is essential to provide information on the statistical significance of the results to ensure the validity of the conclusions drawn. Specify the statistical tests used to analyze the data and include information on significance levels to support the validity of the results. Additionally, consider consulting with a statistician to ensure appropriate analysis and interpretation of the data.</li> <li>-Cited more references</li> <li>- Certain results have written in the manuscript may be unfamiliar. The authors should care to enhance the clarity and accessibility of the manuscript.</li> <li>- Expand the discussion section to provide a comprehensive analysis of the findings, including comparisons with previous studies and potential implications for aquaculture practices. Discuss possible reasons for any discrepancies between the current results and prior research, and propose hypotheses for further investigation.</li> <li>- The results section is well-structured and clearly presents the findings of the study. Tables and figures are effectively utilized to summarize data, facilitating easy interpretation of the results by readers.</li> </ul> <p><b>-References: need to check twice as per journal format.</b>  <b>Some citations are attached here-</b>  Mondal, P., Adhikary, P., Sadhu, S., Choudhary, D., Thakur, D., Shadab, M., Mukherjee, D., Parvez, S., Pradhan, S., Kuntia, M., Manna, U., &amp; Das, A. (2022). Assessment of the impact of the different point sources of pollutants on the river water quality and the evaluation of bioaccumulation of heavy metals into the fish ecosystem thereof. <i>Int.
