

Editor's Comment:

I am sending you my editorial decision on the manuscript you sent. "The manuscript should be published in AJRID after solving the following queries:"

1. Figure (1) was not referred (to)/cited in the text/paragraph.
2. Authors used different colours in Figure 1 such as red, blue (light and dark), green and yellow. What did they refer to?
3. Make sure that authors have (official) permission to use the photos and figures in their article. Let them add reference(s) for these photos and figures.
