

Review Form 1.7

Journal Name:	Journal of Engineering Research and Reports
Manuscript Number:	Ms_JERR_114447
Title of the Manuscript:	MAXIMZING OIL RECOVERY IN A MARGINAL OILFIELD: NIGER DELTA CASE STUDY
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>The problem of increasing production from old fields is relevant all over the world. Oil production equipment and electricity are constantly becoming more expensive. But oil prices are no longer very high.</p> <p>The title of the article reflects its content.</p> <p>The abstract reflects the main content of the article.</p> <p>The article is presented logically.</p> <p>This manuscript needs to be corrected.</p> <p>The number of links should be increased</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>I'm not good enough in English</p>	
<p>Optional/General comments</p>	<p>1. The article does not contain mathematical formulas.</p> <p>2. Figures 3-7 are similar. Only the depth numbers differ. Five identical drawings take up too much space. One drawing should be provided, and the numbers should be given in the table.</p> <p>3. Figures 13-17 have the same axes. All 5 curves can be shown in one picture in one coordinate system.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
