

Editor's Comment:

Journal Name: Microbiology Research Journal International

Editorial decision for manuscript number: 2024/MRJI/113915 - Accepted

Title of the Research Paper: Comparative effects of fermented and unfermented Parkia biglobosabean seeds in diabetic induced experimental rats.

General Observation:

I have gone through the paper fully and i have also analysed the comments given by both the reviewers. In the revised submission the author (s) have carried out all corrections pin pointed by the reviewers. and the corrections were also minor and this does not affect the quality of the paper and i recommend to accept this paper for publication in Microbiology Research Journal International.
