

Review Form 1.7

Journal Name:	Journal of Advances in Medicine and Medical Research
Manuscript Number:	Ms_JAMMR_114486
Title of the Manuscript:	END-TO-SIDE NEURORRHAPHY TECHNIQUES: EXPLORING NEURONAL REGENERATION TO RESTORE NERVE FUNCTION - CASE REPORT
Type of the Article	Case report

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>The case report about a pediatric patient with total left brachial plexopathy, exhibiting partially restored motor function and impaired sensitivity, that was treated with the end-to-side neuropathy (ETSN) technique.</p> <p>The title of the case report is suitable as it is named as;"END-TO-SIDE NEURORRHAPHY TECHNIQUES: EXPLORING NEURONAL REGENERATION TO RESTORE NERVE FUNCTION - CASE REPORT" that is completely describe the include of the report.</p> <p>The abstract is comprehensive but there can be additional more up to date, much more daily references like;Front. Neurol., 06 April 2023 Sec. Neurotrauma Volume 14 - 2023 https://doi.org/10.3389/fneur.2023.1088983 Experimental study on the repair of peripheral nerve injuries via simultaneously coaptating the proximal and distal ends of peripheral nerves to the side of nearby intact nerves</p> <p>There should be also explanation of molecular mechanisms of end to side neuropathy to understand the physiologic mechanisms, as this papers can be a good references for molecular mechanism; J Clin Med. 2023 Feb; 12(4): 1555. Published online 2023 Feb 16. doi: 10.3390/jcm12041555. PMID: 36836090. Molecular Basis of Surgical Coaptation Techniques in Peripheral Nerve Injuries</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Minor revision There is also written mistakes like; NEURORRHAPHY TECHNIQUES in title side is just the one example...</p>	
<p>Optional/General comments</p>
