<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p><i>The article is written quite well .The concept is novel though this area is rarely broached upon despite the fact that breast cancer is currently the leading malignancy among women world over .</i></p> <p><i>Your concept,methodology and way of data collection seems flawless.</i></p> <p><i>However discussion appears to be slightly repitative of findings partly because of the nature of the study .It would be great if as authors you could suggest remedial measures where ever possible.</i></p> <p><i>Is there a possibility of devising a scoring systems to assess how debilitating are few physical characteristics eg hair loss?. Many centres are now experimenting with things like scalp cooling techniques with encouraging results Similarly the need for a dedicated oncopsychologist and help groups (eg survivors meets etc) could be suggested as remedial measures.</i></p>	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> 1. Is language/English quality of the article suitable for scholarly communications? 		
<p>Optional/General comments</p>
