From the point of view of the preparation of this article, there are several things that need to be improved:</p> <p>1) The length of the journal article should be between 8,000-10,000 words. This article with 22 pages is more than 10,000 words.</p> <p>2) Avoid using paragraphs that are too short i.e. only 2 or 3 lines like on pages 1, 2, 3.</p> <p>3) Avoid paragraphs that are too long until reach 1 whole page such as on pages 4, 13 and 19. Please break paragraphs that are too long into several paragraphs.</p> <p>4) The end of the sentence of each paragraph should be on the same line so that the article looks neater and organized.</p> <p>5) Avoid using wrong symbols on sub topics like on page 12, " A- The marginalization of the Tuareg nomads:" Any sub-title does not need the symbol ":"</p> <p>6) This article does not show a clear research methodology.</p> <p>7) On page 1 sentence "...such as Jean Gallais in 1976 and Paul Pandofli in 1998 claim that the concept of nomadism..." please cite the studies of those involved.</p> <p>8) Overall, this article can be published but improvements should be made first especially in terms of article length. Please remove parts that are not important or create new paragraphs that are more informative.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	Suitable	
<p>Optional/General comments</p>	Good article but very long with 21 pages
