Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>This study is very interesting The manuscript holds a significant importance for the scholarly community as it serves as a valuable source of scientific progress on the perceived digital risk experience of the elderly. The manuscript provide pertinent knowledge and information that is relevant and timely. Additionally, literature review provided by the authors are adequate to bolster the significance of this study within our research community, as it facilitate progress and collaboration in the field of study.</p> <p>Digital Risk of Senior Care in Shandong Province under the Background of Digital Divide</p> <p>I suggest the author would add more details on the methodology such as the number of participants and reliability of the study. Likewise, the abstract establish the importance of research.</p> <p>The manuscript was well-written, however, I suggest the author to presents it theoretical and conceptual framework of the study. Additionally, the manuscript would be significantly improved with the addition of more details about Review of Related Literature (add section for RRL). Moreover, the validity and reliability is very lengthy as such, I suggest the author to reduce this section and keep only the most important one. Suggested order of the following subtopics Study 1: The Digital Risk of Senior Care in Qingdao City Validity and Reliability Study2: The Digital Risk of Senior Care in Qingdao City Discussion</p> <p>The authors have utilized appropriate statistical tools. However, in the discussion section of qualitative analysis about digital risk of senior care in Qingdao City it was presented/discussed in a quantitative form of discussion, I would have wished to see "theming" thematic analysis on this section.</p> <p>The authors provide thorough citations and references.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>The author utilize professional language and use concise writing were a scholars can easily comprehend the thoughts and ideas of the study.</p>	
<p>Optional/General comments</p>	<p>To make this paper publishable, the author needs to respond to the following substantive points...</p> <ol style="list-style-type: none"> 1. Utilize theoretical framework 2. Shorten your validity and reliability 3. Use/add themes in your qualitative results discussion
