

Editor's Comment:

The manuscript titled "Experimental Study on Mechanical Coupler Splices in Reinforced Concrete Beams Under Cyclic Flexural Loading" submitted to the Journal of Engineering Research and Reports. After a thorough assessment, I am pleased to accept the manuscript for publication in the journal. The study provides valuable insights into the behavior of mechanical coupler splices in reinforced concrete beams under cyclic flexural loading, contributing significantly to engineering research.

My recommendation is to be accepted and to be published in its current format.
