<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes, it is</p>	
<p>Optional/General comments</p>	<p>The authors should from the first paragraph in the introduction state the Corporate Governance Code(s) the manuscript is referring to with the year of the Code. This should apply to all other laws/codes referred to in the manuscript.</p> <p>The authors should provide the section of the Code(s) and or Law(s) that provide for women participation on boards. The authors have to be mindful of articles they are using to support submissions. For instance, Sewpersadh was used to back up a submission on Nigeria but Sewpersadh article was written with a focus on South Africa.</p> <p>In the conclusion, where the authors provided that a company can increase of the firm's equity base through the increase of the number of shareholders, it should be changed to state through the increase in the shares of the company. This is what will increase the equity base of the company not the increase in shareholders.</p> <p>The limitation of the study should first come up in the Data and Methodology heading and not in the conclusion.</p>
