

Review Form 1.7

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_113382
Title of the Manuscript:	Development and Characterization of Multinutrient Formulations for Organic Farming
Type of the Article	Original Research Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Yes . But too abrupt conclusion should be deleted . It is not tested on actual crop.</p> <p>Ok</p> <p>Too much wordiness . Sections and subsections are unnecessary.</p> <p>Ok</p> <p>Partly. Unsubstantiated conclusions made.</p> <p>Too many references. Reduce. Use the most contributing ones only.</p> <p>It is good attempt. But testing of the combinations in actual field trials required to make the conclusion about nedran banana. Without this conclusion the paper should be revised.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Too long and wordy statements should be avoided. Check spelling . Language should improve.</p>	
<p>Optional/General comments</p>	<p>1. Abstract should be ONE para with no subtitles and sections. In about 300 words. 2. Table heading and tables are not aligned properly. 3. Final conclusion on the suitability of a particular combination for Nendran Banana is mere assumption. It should be SUPPORTED BY ACTUAL FIELD application vis-a Vis other combinations.</p>
