

Review Form 1.7

Journal Name:	International Journal of TROPICAL DISEASE & Health
Manuscript Number:	Ms_IJTDH_113693
Title of the Manuscript:	Natural Bioactive Compounds on Schistosoma haematobium and Schistosoma mansoni
Type of the Article	Minireview Article

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>The analysis underscores the potential of natural bioactive compounds derived from plants as an alternative or complementary approach in the management and eradication of schistosomiasis, aligning with global health objectives and the need for innovative solutions. However, it emphasizes the importance of addressing challenges such as lack of information and integrating these approaches into existing control strategies. The topic is relevant</p> <p>Alternative title. It is recommended to change the name: The analysis of the effective use of natural bioactive compounds on <i>Schistosoma haematobium</i></p> <p>Grammar!! Give answers to questions</p> <p>Yes</p> <p>Yes</p> <p>REFERENCES: to be modified as required</p> <p>ABSTRACT Add structural parts to the abstract Aim: Results: Conclusion:..... Delete link PubMed (https://pubmed.ncbi.nlm.nih.gov/); Google Scholar (https://scholar.google.com/); ScienceDirect (http://www.sciencedirect.com/) and Hinari (https://extranet.who.int/hinari/fr/journals.php)</p> <p>2. MATERIAL AND METHODS</p> <p>Get a link http://www.sciencedirect.com/) Get a link https://extranet.who.int/hinari/fr/journals.php Figure 1 → Fig.1.</p> <p>3.4. ANTISCHISTOSOMAL ACTIVITY OF NATURAL SUBSTANCES</p> <p>Specify the name and location of the laboratory Correction Table 1. The different families of plants encountered in the literature Enter a column with author's data Correction head correction table Make gaps between the number and units of the world Correction test: Figure → Fig.2. picture 1 → Fig. 1.</p> <p>3.8. CYTOTOXICITY TESTS</p> <p>Write the cytotoxicity results</p>	<p>Comment [PW1]: Get a link</p> <p>Comment [PW2]: Get a link</p> <p>Comment [PW3]:</p> <p>Comment [PW4]:</p> <p>Comment [PW5]:</p> <p>Comment [PW6R5]: Fig. 1.</p> <p>Comment [PW7]: Write the cytotoxicity results</p>

Review Form 1.7

	4. CONCLUSION In the conclusion, clearly indicate which plants are the most effective in therapy	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	The entire text needs to be checked and corrected by a native English speaker	
Optional/General comments	Grammar!! Give answers to questions	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
