If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>It is because it is handling a critical resource</p> <p>It is suitable and can be improved as the final manuscript is made. My suggestion Assessing Water Conservation Techniques in Agriculture for Sustainable Resource Management in India</p> <p>Is adequate</p> <p>They are appropriate and need to link to the topic</p> <p>It is. It has considered other scholars ideas</p> <p>They are and depending on how they appear either alphabetically or otherwise</p> <p>Information on case studies is limited. Success stories need to come out clearly and lesson learned for case study X so that same mistakes are not repeated when implementing the water conservation</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Language is ok and use of difficult terms can be minimised as per my comment in the text</p>	
<p>Optional/General comments</p>	<p>In order to campaign for water conservation. Do we know the challenge? What is the per capita consumption of water in India? Are we water stressed. Need a basis that will encourage everybody to conserve and manage water. Information is in a paper about water and Agriculture in India by Dr. Vibha Dhawan (GFFA) 2017</p>
