Abstract part is not attractive, better to re-write it and the structure of the manuscript is poor and there are repetition of ideas as well as the flow of the idea is not well managed. It is somehow confuses the readers. The author should add some references to make the arguments more solid.</p> <p>Additionally, #What triggers the authors to do this review on Agriculture 4.0 is not clear. As our world is passing through Agriculture 5.0, it is better to write papers on this area than focusing on Agr 4.0.</p> | |
