

Review Form 1.7

Journal Name:	Asian Journal of Biochemistry, Genetics and Molecular Biology
Manuscript Number:	Ms_AJBGMB_113738
Title of the Manuscript:	EFFECT OF ETHANOL EXTRACT OF AVOCADO PULP (Persia americana mill) ON SPERM QUALITY AND HISTOLOGICAL CHANGES IN CAFFEINE INDUCED TESTICULAR INJURY IN WISTAR RATS
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1. Yes, it covers an important problem which has been an issue in the society. The males usually suffers with the problem but never visits the clinician for evaluation or check up. This paper may help in consuming Avacado (Persia americana mill) for improving the sperm quality and count which will result in good fertility.</p> <p>2. The title is suitable.</p> <p>3. Abstract is comprehensive. I suggest to add headings: intro, method, result, conclusion.</p> <p>4. The subsections are appropriate.</p> <p>5. The manuscript is absolutely correct scientifically.</p> <p>6. References.</p> <p>others:</p> <ul style="list-style-type: none"> ● The method "Neubauer cytometer" is quite primitive which may have many human and calculation errors, instead the use of "Automated cell counters" will give better and accurate results. ● The extract increases the acidity of the semen (table:2) which is not healthy. 	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>There is no doubt in the language of the paper. It will be very well understood by the scholars when read.</p>	
<p>Optional/General comments</p>		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p>(If yes, Kindly please write down the ethical issues here in details)</p>
