(Please write few sentences on this manuscript) Is the title of the article suitable? (If not please suggest an alternative title) Is the abstract of the article comprehensive? Are subsections and structure of the manuscript appropriate? Do you think the manuscript is scientifically correct? Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>The article presented a timely and relevant research topic on the application, effect, and challenges of using immersive learning environments. However, there are factors that the author/s must consider and revise before the publication of the research paper in the journal.</p> <p>The manuscript presented a review of relevant literature and studies relevant to the research topic but lacked substantial discussion on the important and relevant information on the results of each reviewed article.</p> <p>The authors must carefully check the tenses of the verbs and the subject (should not use 1st person) throughout the discussion in the paper.</p> <p>Grammar and clear discussions of the reviewed papers must also be considered and should be checked carefully before publication.</p> <p>The author/s must separate the discussion on the application, effect, and challenges of immersive learning environments in education and should present a thorough discussion of the relevant results of each reviewed paper to answer the stated research question/objectives.</p> <p>Provide a more detailed review on the challenges of using immersive learning environments and also the factors that might affect the implementation of such technique coming from the reviewed literature and studies.</p> <p>Congratulations on submitting such a relevant and timely study to the research journal. Please consider the following suggestions and recommendations for the improvement of your research paper before publication.</p>
