

Review Form 1.7

Journal Name:	Asian Journal of Immunology
Manuscript Number:	Ms_AJI_113963
Title of the Manuscript:	THE INTELUEKINE -2 AND INTERLUEKINE -4 RESPONSE PROFILES IN PEDIATRIC BCG VACCINEE
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Is the title of the article suitable? (If not please suggest an alternative title) Is the abstract of the article comprehensive? Are subsections and structure of the manuscript appropriate? Do you think the manuscript is scientifically correct? Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>The manuscript important for scientific community, it was evaluated the IL-2 and IL-4 profile to BCG vaccinated and non-vaccinated children. It would be more valuable if the sample size increase.</p> <p>THE INTELUEKINE -2 AND INTERLUEKINE -4 PROFILES IN BCG VACCINATED PEDIATRIC</p> <p>I pleased the authors to divide the abstract to; Background, objectives, material and method, results, conclusion, and key words.</p> <p>I pleased the authors to re write the introduction and discussion, the result should be as figures and tables. Please collect the Figures on one chart.</p> <p>References are not sufficient and some of it not recent, also, not following same citation method.</p>	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? 	<p>The article needs to improve the English language.</p>	
<p>Optional/General comments</p>	<p>I pleased the authors to guide this advices, The introduction needs more details about the BCG vaccine, the roles of IL-2, IL-4 and its responses to BCG. Present study objectives should determine. Demographic data about vaccinated and non-vaccinated children e.g; age, sex, parents' education level, socioeconomic status are important to assess the results. The blood samples processing not clear. ELISA kits company name? The quality of tables and figures should improve.</p>
