<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Is the title of the article suitable? (If not please suggest an alternative title) Is the abstract of the article comprehensive? Are subsections and structure of the manuscript appropriate? Do you think the manuscript is scientifically correct? Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>The whole article needs a major revision:</p> <ul style="list-style-type: none"> -The abstract should not include review of the literature. It should provide the finding of the current study and a clear conclusion. - Introduction and discussion both contain review of the literature; however, they lack coherence. - There are many important missing data in method and result sections. Many details are needed to be added. -Discussion should be more concise and to the point. - Conclusion is not clear enough. 	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? 	No, it needs extensive editing.	
<p>Optional/General comments</p>
