If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>-The review lacks a comprehensive discussion on diverse perspectives, experiences, and identities within adolescence. It is crucial to include a broader range of cultural, gender, and socio-economic contexts to provide a more holistic understanding.</p> <p>-The review may not adequately address cultural nuances in discussing sexuality and reproductive health in adolescence. It is essential to acknowledge and explore cultural variations in attitudes, practices, and access to information and services.</p> <p>-The review tends to focus heavily on the risks and challenges associated with adolescent sexuality, potentially overshadowing positive aspects such as healthy relationships, communication skills, and education. A more balanced approach would provide a more nuanced perspective.</p> <p>-The review could provide more detailed information about the methodology used for selecting and analyzing the included studies. A transparent methodology would enhance the credibility of the findings.</p> <p>-The paper could delve deeper into the effectiveness of sexuality education programs and their impact on adolescent knowledge, attitudes, and behaviors. A more thorough examination of successful interventions would provide valuable insights for policymakers and educators.</p>
