<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Is the title of the article suitable? (If not please suggest an alternative title) Is the abstract of the article comprehensive? Are subsections and structure of the manuscript appropriate? Do you think the manuscript is scientifically correct? Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<ol style="list-style-type: none"> The manuscript is important for crop breeding research at a time when germplasm is fast eroding due to pureline breeding, there is a need to preserve land races The title is suitable Yes but needs to be improved upon by highlighting major findings Yes To an extent. Much work still needs to be done on presentation of results ad discussions to make this section tie with the objective of the study References are recent but seem to be too few for such a contemporary topic. However, the citations can be improved if recommended work is done at the level of presentation of results and discussions 	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? 	<p>The English was not very coherent probably the author is not a native English speaker but I have worked on that already</p>	
<p>Optional/General comments</p>	<p>Work is good but for presentation of some sections which could be ameliorated as recommended on the article</p>
