Manuscript Number:	Ms_AJEBA_111950
Title of the Manuscript:	The Influence of e-banking on the Financial Performance of Kenyan Commercial Banks
Type of the Article	Original Research Article

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>This manuscript provides a good finding towards community. Hence the way to present the finding should be clear so that the readers can have a better understanding about the scenario.</p> <p>Suitable</p> <p>Good</p> <p>Need to revise accordingly. Refer to the comments provided on the manuscript.</p> <p>Yes</p> <p>The references sufficient and quite recent. However the format of citation and also the list of references should be corrected.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>It would be better if the author can ask someone to proofread the sentences.</p>	
<p>Optional/General comments</p>	<ul style="list-style-type: none"> - The discussion on this concept of e-banking is quite long. Should break into few paragraphs. At the end of this section 1.1, no more discussion about the concept but more to the scenario in Kenya. - Under Data Analysis section it would be great if authors can show figures that explain about correlation and put separately (not in the sentence) the proper formula of multiple regression. - Research framework should be included that exhibits about the dependent and independent variables used in this study. - Explain also the values of standard deviation as some of the readers may not understand what does the values means? Just take 1 value then explain or explain for overall of SD briefly. - For correlation analysis, it would be better if the authors can include the graph to represent the finding. It is because the graph can exhibit a better understanding about the correlation. - Any previous studies that can support your finding? - All the findings explain within the period of study from December 2022 and July 2023? Please highlight once again on the result section. 	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
