

Review Form 1.7

Journal Name:	Journal of Applied Life Sciences International
Manuscript Number:	Ms_JALSI_112530
Title of the Manuscript:	INTERGRATED FISH AND POULTRY PRODUCTION COMBINED
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1. The integration of fish farming into agricultural production systems constitutes a very popular approach currently in the sector to improve and profitability the production of farmed fish. As such, this study seems very useful for the development of fish farming.</p> <p>2. The title doesn't seem appropriate. It could be titled as follows: Feasibility tests of a fish farm integrating the breeding of poultry and a fly</p> <p>3. yes</p> <p>4. Yes</p> <p>5. No</p> <p>6. The references are not sufficient and recent</p> <p>The methodology is not explicit enough. There are many things missing, such as the author planned these manipulations and the statistical treatments which made it possible to analyze his results.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>English language is correct</p>	
<p>Optional/General comments</p>	<p>The article must be written by integrating recent knowledge on the integration of fish farming into agricultural production systems on the one hand and by clearly explaining the methodology adopted in the study. The author must also expand on the discussion of his results and develop his conclusion.</p>
