

Review Form 1.7

Journal Name:	Journal of Geography, Environment and Earth Science International
Manuscript Number:	Ms_JGEESI_113572
Title of the Manuscript:	Integrating Geostatistics and GIS Technique for Efficient Farm Management and Maintaining Soil Health
Type of the Article	Original Research Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>The use of Geo-spatial techniques and tools for land resources characterization, evaluation and management is still under discussion and validation and this research work is in line with these efforts.</p> <p>Integrating Geo-spatial techniques for reflecting micro-nutrients and sulfur variations and spatial distribution to support farm management practices</p> <p>It is comprehensive but some correction were suggested</p> <p>Subsections and structure of the manuscript are appropriate</p> <p>Yes, it is</p> <p>As indicated some more references are needed to support some statement put across by the researcher</p> <p>I think the produced soil maps showing the distribution of the different nutrients in farming areas is the product of this research that would be mostly used by farm managers and extension advisors. Accordingly, the apparent surface soil features related somehow to the nutrients maps units should be explained (i.e. topography, Parent materials, soil type etc.)</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>The language is suitable for scholarly communication.</p>	
<p>Optional/General comments</p>		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
