

Review Form 1.7

Journal Name:	Asian Journal of Research in Infectious Diseases
Manuscript Number:	Ms_AJRID_115868
Title of the Manuscript:	HAEMATOLOGICAL PROFILE OF PATIENTS INFECTED WITH MONKEY POX VIRUS
Type of the Article	Letter to Editor

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Yes it is. The hematological indices are significant parameters for clinical diagnosis and treatment regime for a particular diseases and an outbreak like Monkey pox virus require</p> <p>Yes</p> <p>Not applicable</p> <p>The manuscript requires appropriate structure. It is suggested to add clinical symptoms and diagnostic parametres of Monkey pox virus. This paragraph should be discussed first and the information regarding its outbreak and blood samples should be discussed later.</p> <p>Yes it is, but it require conclusion and corelation of the hematological findings that would be beneficial for future research and open new gateways for advance research in the similar area.</p> <p>Cite and co-relate this recent reference regarding the changes in lymphocyte morphologically, resulting in atypical Lymphocytes "Suvvari, Tarun Kumar et al. "Hematological manifestations of Monkeypox virus (MPOX) and impact of human MPOX disease on blood donation - What we need to know?." New microbes and new infections vol. 52 (2023)."</p> <p>Add blood films microscopic images supporting your findings of Activated monocytes (AM) with cytoplasmic vacuolation, Large granular lymphocytes (LGL) and lymphocytosis.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes.</p>	
<p>Optional/General comments</p>	<p>Over all the manuscript includes very significant data, but it require the conclusion and co-relation of the findings to make it interesting and insightful for the readers.</p>
