<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>The manuscript is really very important as it spots the light on the haematological changes in a recently emerging disease that caused outbreak and become a hot topic in media.</p> <p>I find the title is suitable. Another suggested title is (haematological changes in Mpox cases).</p> <p>Yes, it is comprehensive.</p> <p>Yes</p> <p>Yes, it is scientifically sound.</p> <p>the 2nd reference is irrelevant, it is a journal article not talking about the manifestations and severity as in the mentioned paragraph. (needs revision and change). The 3rd reference is a book needs to be written in the correct format including the title of the chapter and pages.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes the language is suitable.</p>	
<p>Optional/General comments</p>
