

**Editor's Comment:**

The manuscript entitled "Extraction of Natural Food Color from Tomato, Carrot and Turmeric" is generally well organized and has a clear objective and the results. There are minor revisions suggestions made by two reviewers indictaing the introduction section and concluding remarks as well aslackof using recently published literature. The authors made all necessary correctiins in the revised versiob of the manuscript.

Hereby, I inform you that the manuscript can be accepted for the publication in the EJFSN.
