Manuscript Number:	<b>Ms_JAMMR_116880</b>
Title of the Manuscript:	<b>Overlap syndrome: Systemic lupus erythematosus and ANCA vasculitis in a case report</b>
Type of the Article	<b>Case report</b>

**Review Form 1.7**

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>The association of rare cases and the management strategy may worth presenting.</p> <p>Overlap syndrome concomitant Systemic lupus erythematosus and ANCA vasculitis a case report</p> <p>the abstract of the article comprehensive</p> <p>Yes</p> <p>Overlap syndrome is co occurrence of Systemic lupus erythematosus and ANCA-associated vasculitis</p> <p>References section used in discussion part.</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	<p>The text should be checked and edited for spelling errors. The text should be easy to read and expressed in a more understandable way. (Renal involvement is common in both diseases, and is of the glomerulonephritis type with immune complex deposits in LES, and of the pauci-immune extracapillary glomerulonephritis type without immune complex deposits in VAA [3,4].)</p>	
<p><b>Optional/General</b> comments</p>	<p>Please mention about the type of treatment in abstract as Progression was good with Corticoid treatment. <b>It would be appropriate to provide a reference for general explanations in introduction part. And add to references section.</b></p> <p><b>The renal work-up revealed a pure nephrotic syndrome, with 24h proteinuria at 3.5g/24h and albuminemia at 25g/L. Renal ultrasonography was unremarkable, so a renal biopsy was indicated.</b> The text written above has been repeated. Please remove duplicated one from text.</p> <p>The diagnosis of microscopic polyangiitis was thus accepted according to the diagnostic criteria described in the guide to long-term illnesses. Thus, the patient also met the diagnostic criteria for SLE according to the EULAR/ACR classification. Please refer the guides in text and add references section.</p> <p>Abbreviations should be explained where they are first mentioned in the text. Please correct it if it's spelled wrong. (SLE /AAV, LES, VAA, AAN) It should be ANA. Terminology confusion throughout the text needs to be edited out. All abbreviations need to be checked.</p>	

**Comment [Mh1]:** The text should be easy to read and expressed in a more understandable way.

**Comment [Mh2]:** The text written above has been repeated. Please remove this part from text.

**Comment [Mh3]:** Please refer the guide in text and add references section.

**Comment [Mh4]:** Please refer the guide in text and add references section.
