

Editor's Comment:

Accepted after minor revision

I read closely 2024SAJSSE116628. My editorial decision for manuscript number: 2024/SAJSSE/116628 is to read closely 2024SAJSSE116628. My editorial decision for manuscript number: 2024/SAJSSE/116628 is to publish as is, see attached GeneralReview124.pdf.

I suggest revised title: "Effects of Urban Growth and Urbanization on the Social Environment: Case Study Old and Modern Cities of Yemen."

The article is an impressive research article.

The article is well-written, most interesting and important. The authors' main conclusions make good common sense to me.

The results of the population projections conducted by the Central Statistical Agency (CSO) through the results and indicators of the General Census of Population, Housing and Establishments 2004 indicated that the population growth will remain high over the next 20 years. As a result of the impact of high fertility and the age composition of the population, in the best circumstances and probabilities, the natural increase rate will not fall below 3.01% during this period, which requires mobilizing all available resources and resources and making significant efforts at all levels to cope with the burdens of this increase economically and socially.

The author may want to inject a word about the City of Eden during the Pharaohs of Ancient Egypt. Jewish tradition has it Joseph, when he was made king, managed to gather all the gold, silver, precious stones etc of the known world. When the Israelites Exodus the Egyptians gave freely to the Israelites. Amazing. Ezekiel 27: 22The traffickers of Sheba and Raamah, they were thy traffickers; they traded for thy wares with chief of all spices, and with all precious stones, and gold. 23Haran and Canneh and Eden, the traffickers of Sheba, Asshur was as thine apprentice in traffic. 24These were thy traffickers in gorgeous fabrics, in wrappings of blue and richly woven work, and in chests of rich apparel, bound with cords and cedar-lined, among thy merchandise. 25The ships of Tarshish brought thee tribute for thy merchandise;

So wast thou replenished, and made very heavy In the heart of the seas.

Ezekiel 28: 11Moreover the word of the LORD came unto me, saying: 12'Son of man, take up a lamentation for the king of Tyre, and say unto him: Thus saith the Lord GOD: Thou seal most accurate, full of wisdom, and perfect in beauty, 13thou wast in Eden the garden of God; every precious stone was thy covering, the carnelian, the topaz, and the emerald, the beryl, the onyx, and the jasper, the sapphire, the carbuncle, and the smaragd, and gold; the workmanship of thy settings and of thy sockets was in thee, in the day that thou wast created they were prepared.

Amazing the ancient City of Eden was the source of 9 of the 12 stones of the Breast Plate of Exodus 28: (Malbim on Ezekiel 28:13)

15And thou shalt make a breastplate of judgment, the work of the skilful workman; like the work of the ephod thou shalt make it: of gold, of blue, and purple, and scarlet, and fine twined linen, shalt thou make it. 16Four-square it shall be and double: a span shall be the length thereof, and a span the breadth thereof. 17And thou shalt set in it settings of stones, four rows of stones: a row of carnelian, topaz, and smaragd shall be the first row; 18and the second row a carbuncle, a sapphire, and an emerald; 19and the third row a jacinth, an agate, and an amethyst; 20and the fourth row a beryl, and an onyx, and a jasper; they shall be inclosed in gold in their settings. 21And the stones shall be according to the names of the children of Israel, twelve, according to their names; like the engravings of a signet, every one according to his name, they shall be for the twelve tribes.

Adam Smith writes in his famous *Wealth of Nations* of Ancient Egypt, of cities and ports. My decision is to publish the case study article as is. Let Adam Smith, ancient Eden, ancient Egypt be another paper.

publish as is, see attached *GeneralReview124.pdf*.
