| Manuscript Number: | Ms_AJRRGA_117019 |
| Title of the Manuscript: | A Rare Case of Crohn's Disease Associated with Peutz-Jeghers Syndrome |
| Type of the Article | Case report |

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajrrga.com/index.php/AJRRGA/editorial-policy>)

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|--|---|
| <p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p> | <p>1. Yes, it is relevant due to the rare association of two diseases.</p> <p>2. Yes.</p> <p>3. Yes, comprehensive and clearly exposed.</p> <p>4. Yes.</p> <p>5. Yes, it just lacks of some informations about previous histological findings (please see "Optional/General comments")</p> <p>6. Yes, they are abundant and specific for this type of manuscript.</p> <p>Please provide histological findings in bowel resections</p> | |
| <p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p> | <p>1. Yes.</p> | |
| <p>Optional/General comments</p> | <p>There is no description of histological findings in bowel resection: please add this relevant item; maybe a revision of histology could provide information about a coexisting Crohn's disease pattern.</p> | |
