

Review Form 1.7

| | |
|--------------------------|-----------------------------------------------------------------------|
| Journal Name: | Journal of Advances in Medical and Pharmaceutical Sciences |
| Manuscript Number: | Ms_JAMPS_116254 |
| Title of the Manuscript: | Radioprotection compliance rules study in Dakar's hospitals (Senegal) |
| Type of the Article | Original Research Article |

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p> | <p>1- Yes, it is important for scientific community since it shows the reality in Senegal's hospitals when it comes to radiation protection aspects and limitations.</p> <p>2- Yes, the title is suitable.</p> <p>3- The abstract is comprehensive, but it lacks important information such as methodology.</p> <p>4- The structure is appropriate, but the subsections were a bit confusing.</p> <p>5- I believe the methodology should have more information to be considered scientifically correct. It was mentioned more than once that this was a mixed cross-sectional study combining two quantitative and qualitative approaches. It's not clear what approaches they were talking about.</p> <p>6- The references are mostly recent, but I believe it should be included an international standard reference, such as the IAEA Safety Standards Series.</p> | |
| <p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p> | Yes. However, it could be revised to adjust for minor grammatical errors. | |
| <p>Optional/General comments</p> | it needs revision, specially in the methodology section. | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
