

Review Form 1.7

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBCRR_116603
Title of the Manuscript:	A STUDY OF THE EFFECT OF ANNONA MURICATA AQUEOUS EXTRACT ON LIVER ENZYMES OF ALBINO RATS OVERDOSED WITH PARACETAMOL
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1. It is suitable for potential publication but need revisions as suggested</p> <p>2. Title need to revised and make more attractive to the audience such as "Assessing the Impact of Annona Muricata Aqueous Extract on Liver Enzymes in Albino Rats Exposed to Paracetamol Over dose"</p> <p>3. 'No' The abstract of the manuscript need to revise and it should be more informative like in methodology section there is no information provided for aqueous extraction.</p> <p>4. 'No' Figure legends are not at appropriate position and also need to correct the denotation in figure 1 i.e. * or #</p> <p>5. 'NO' there is a confusion whether authors used Wister Rat or Albino Rat both strain are different it is needed to be more specific about animal model. level of specificity helps in understanding the study's methodology and results and enables better comparison.</p> <p>6. 'NO' There is no any recent references added into the manuscript there is need to add more references of recent.</p> <p>Additional suggestion: The introduction segment necessitates an update to incorporate recent developments elucidated in pertinent literature pertaining to the subject matter. The Manuscript make more clearer view if the crude extract is also included in study</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>'NO' The manuscript needs to review and revise thoroughly in terms of English language and grammar.</p>	
<p>Optional/General comments</p>	<p>In Table 1 There is negative values shown in difference in weight what it means.</p>
