

Review Form 1.7

| | |
|--------------------------|--|
| Journal Name: | Asian Journal of Research in Infectious Diseases |
| Manuscript Number: | Ms_AJRID_115598 |
| Title of the Manuscript: | Does malaria protects against COVID-19? |
| Type of the Article | Review Article |

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|---|---|
| <p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p> | <p>1. This review does not reflect any molecular pathways which shows the connection between COVID 19 and Malaria. This review only focused on the epidemiological survey and environmental conditions and areas..... this review can be turned to the genetic polymorphisms with genetic variance or SNP, the immune modulatory effect of malaria which increases the immunity of population...</p> <p>2. This title raises the question in the mind of the reader " Does malaria protect against COVID-19?" Suggestion....."Exploring the Potential Cross-Protection: Malaria Endemicity and Reduced Severity of COVID-19"</p> <p>3. Add some highlights of your review points in abstract</p> <p>4. Lack of appropriate information.....</p> <p>5. Outline of review is not sufficient its too short information</p> <p>6. All collected information is recent..... but add some research information on the basis of molecular information</p> <p>7. Add all abbreviation list.....Like ACE2.....</p> | |
| <p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p> | <p>Some typographical mistakes I have seen in the manuscript rearrange the all content in uniform format..... correct the all grammatical mistakes.....add more research molecular connections or flows in the concepts...</p> | |
| <p>Optional/General comments</p> | | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|---|---|
| <p>Are there ethical issues in this manuscript?</p> | <p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p> | |
