PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Yes it is especially that Gram arrivals affect the prices.</p> <p>The title is suitable and measurable</p> <p>It has enough coverage</p> <p>Yes however, I propose that the key words be define in the context of this manuscript</p> <p>It is scientifically correct</p> <p>I suggest that three more references are added and that the 1992 and 1999 reference be withdrawn as these look to be too old compared the study period of 2012-2023 range</p> <p>I feel the abstract may also show evidence of research by having some reference/sources to support the source of those precise figures indicated.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>It is suitable, I have guided for some revision of a sentence in paragraph 1 under Abstract</p>	
<p>Optional/General comments</p>	<p>I have made comments in the manuscript itself to indicate the actual portion that may require some attention as highlighted in yellow and red text.</p> <p>General the secondary data seem to suggest a negative correlation between Prices and arrivals of Gams.</p>
