

Review Form 1.7

Journal Name:	Asian Journal of Applied Chemistry Research
Manuscript Number:	Ms_AJACR_117099
Title of the Manuscript:	Analysis of Iron (Fe) Content in Breast Milk of Breastfeeding Mothers
Type of the Article	Original Research Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Specify Hb levels for different anemia levels, normal, mild, moderate.</p> <p>Title may include 'of different anemia levels'.</p> <p>Although not significant but you may mention that "overall a decreasing trend matching to anemia levels was seen though it was not statistically significant due to wide intra-group variations and inter group overlap of measured Fe values" in the abstract discussion n conclusions.</p> <p>Research variable is also - mothers Hb levels, so add.</p> <p>Both tables have comma in place of a decimal point [fullpoint] in values columns.</p> <p>As Fe content is decreasing from D 1 to 14 n at 6 months, the age of infants when breast milk was analysed is needed to be added as another column, as it may explain intra-group wide variation in values.</p> <p>.</p> <p>5. Yes</p> <p>6. Yes</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes</p>	
<p>Optional/General comments</p>	<p>"The Fe content unit is mg/kg is INCORRECT. MILK BEING LIQUID the unit should be mg or micrograms/ litre or decilitre.! So use correct unit in script and tables."</p>
