<p>Optional/General comments</p>	<p>The research article is very informative. However, the article was written very haphazardly with some basic mistakes. I would like to give some suggestions in this regard</p> <ol style="list-style-type: none"> 1. Roasting and toasting are two different cooking methods. Somewhere the author has mentioned roasting and somewhere toasting. Here the appropriate term will be roasting. So do change as needed 2. Values are missing in Table 4. 3. In Table 1, the formulations were written incorrectly. 4. What was the drying conditions? Mention the temperature. 5. Texture is very important for weaning food. Mention the sieve size 6. Through sprouting the protein content increases. Why did your study contradict this? 7. Year is missing in some in-text references
