

## Review Form 1.7

Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_117238
Title of the Manuscript:	Effect of foliar spray of NPK, Borax, ZnSO <sub>4</sub> & MgSO <sub>4</sub> on storage of Strawberry ( <i>Fragaria annanassa</i> Duch.) cv. Winter Dawn
Type of the Article	

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://journaljabb.com/index.php/JABB/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1. <b>Yes. The findings are scientific and can be used for further industrial uses.</b> <b>Which reflected from</b> "It is concluded that the application of NPK @0.5% + Borex @0.25% + Znso<sub>4</sub> @0.25%+ Mgso<sub>4</sub> @0.25% noted significantly better results in terms of minimum physiological loss of weight, total soluble solids, titrable acidity, ascorbic acid, reducing sugar, non-reducing sugar and total sugar content. It was followed by T7 (NPK @1% + Mgso<sub>4</sub> @0.25%) 7.61%) which is significant for the storage of strawberries at ambient conditions.</p> <p>2. <b>Very similar study found by research gate as</b> "Response of foliar spray of iron, zinc and boron in strawberry (<i>Fragaria × ananassa</i> Duch.) cv. winter dawn". However, this has used different applications. The title seems ok.</p> <p>3. <b>Yes.</b></p> <p>4.5. <b>Yes scientific arrangement is there. However, data presented with superscript should be formatted.</b></p> <p>6. <b>Yes</b></p>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	<p>It seems language can be improved more effectively. Suggest double-checking with grammar.</p>	
<p><b>Optional/General</b> comments</p>	<p>Check these two in the whole document ZnSO<sub>4</sub> and MgSO<sub>4</sub>. In some places (even in Keywords) it is mentioned as Znso<sub>4</sub>, Mgso<sub>4</sub>.</p>
