

## Review Form 1.7

Journal Name:	Asian Food Science Journal
Manuscript Number:	Ms_AFSJ_116515
Title of the Manuscript:	Effect of Garcinia Kola Consumption on Lipid Profile and Body Weight of Rats Fed with High Fat Diet
Type of the Article	

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1. The manuscript is important for scientific community as it focusses the study to evaluate the therapeutic potential of bitter kola in weight management and prevention of obesity using rat as experimental model. The present study has shown encouraging results indicating that bitter kola powder has good anti-obesity and hypolipidemic activities and can be used to prevent coronary artery disease and its complications. In the present scenario of changing lifestyles , fast industrial development followed by technological growth and environmental pollution , obesity has emerged as complex chronic disease in all age group of population in developed and developing countries. Thus, there is great need to develop effective drug with minimal side effect to prevent obesity which is a complex disorder caused by the interaction of numerous genetic, dietary, lifestyle, and environmental factors. This requires multidisciplinary scientific research focussing on experimental as well as clinical studies .</p> <p>2. Yes 3.Yes 4.Yes 5. Yes 6.Yes</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	Yes	
<p><b>Optional/General</b> comments</p>		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
