As it is yes</p> <p>2. As it is yes</p> <p>3. As it is yes</p> <p>4. Yes, but it demands a number of amendments like minimizing the number of tables. The author can merge some tables through themes characteristics of the farmers.</p> <p>5. As it is yes, but for me if it is characterization, research the author has to change his focus to typology study and used a kind of analysis method used for typology study. Because typology study helps the development actors how to deliver agricultural extension services to farmers in different typology. or he has to interlink farmers characteristics with some other dependent variable like technology adoption, productivity or</p> <p>6. It is okay by itself,</p>
