

Review Form 1.7

Journal Name:	Journal of Advances in Medicine and Medical Research
Manuscript Number:	Ms_JAMMR_116955
Title of the Manuscript:	Severe Kyphosis Patients with Tuberculosis and Chronic Obstructive Pulmonary Disease - A case report
Type of the Article	Case report

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Is the title of the article suitable? (If not please suggest an alternative title) Is the abstract of the article comprehensive? Are subsections and structure of the manuscript appropriate? Do you think the manuscript is scientifically correct? Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Major Revision</p> <p>In the discussion section; the first two paragraphs have been rewritten over and over again. It should be fixed.</p> <p>The patient also has pectus carinatum deformity. Pectus carinatum should be defined. The relationship between pectus carinatum and kyphosis should be discussed.</p> <p>It should be considered that the patient has a genetic anomaly. Genetic diseases including pectus carinatum, kyphosis, short stature, and lung diseases should be discussed. The importance of genetic examination in such patients should be emphasized.</p> <p>The discussion section should be expanded. The relationship between kyphosis and lung capacity should be expanded and discussed. Current surgical approaches for kyphosis and pectus carinatum should be examined.</p> <p>Other studies in literature in which tuberculosis and kyphosis occur together should be included in the discussion. The discussion section should be expanded with other studies in which COPD and kyphosis are seen together.</p> <p>References should be updated. More recent references should be included instead of old references.</p> <p>Ethics committee approval must be included in the case report.</p>	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? 		
<p>Optional/General comments</p>
