

Review Form 1.7

Journal Name:	Asian Journal of Research in Medical and Pharmaceutical Sciences
Manuscript Number:	Ms_AJRIMPS_116262
Title of the Manuscript:	Analgesic, anti-inflammatory and antipyretic activities of ethanol extract from <i>Ritchiea capparoides</i> leaf in rodents
Type of the Article	Original Research Article

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>YES</p> <p>YES. Title is suitable but confusing with the nature of extracts. The type of extract mentioned in manuscript is different than that of Title. Pls confirm and accordingly revise it.</p> <p>YES</p> <p>YES</p> <p>YES</p> <p>YES</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	Suitable.	
<p>Optional/General comments</p>	<p>1. The Major observation is with regard to the type of extract mentioned in title of the manuscript and body of the manuscript.</p> <p>2. Please confirm the nature of extract actually utilised for the study and accordingly revise the title or manuscript.</p> <p>3. Reframe the sentence with appropriate Auxiliary verbs wherever necessary. For e.g: 1) The last Sentence in introduction part should be: "<i>R capparoides</i> leaf preparations have been used in ophthalmic condition, conjunctivitis, swellings, wounds and in the treatment of Guinea worm."</p> <p>4. If methanol extract is used in the study, justify its benefits over its risk factor.</p> <p>5. Avoid the Superscript while writing Celsius. (Extraction of leaf section)</p> <p>6. Confirm the doses of plant extracts whether it is 125, 250 and 500 mg/kg OR 150, 250 and 500 mg/kg. And accordingly revise in manuscript.</p> <p>7. In all the tables, Confirm the dose of distilled water as it is contradictory to what is specified in procedure part.</p> <p>8. Specify the superscript a and b.in Result note.</p> <p>9. Align the text matter in Reference section and use uniform style for referencing.</p>	

Review Form 1.7

	10.Minor editorial changes like spelling mistake, punctuation mark, Line and paragraph Spacing. 11.The biological name of the species should be italicized. (Reference section)
