<p>Optional/General comments</p>	<p>Dear author: I regret to inform you that the research manuscript is not suitable for publication for the following reasons:</p> <ol style="list-style-type: none"> 1. The title describes one topic and the manuscript deals with another topic. The title of the manuscript would have been a study of the genetic relatedness of a group of wheat varieties. 2. The results were not clearly discussed, interpreted, or supported by reference studies. 3. Tables were included at the end of the manuscript but were not used in the text. 4. References were not used correctly to support the research. Too, the references mentioned in the text are not included in the list, and the reference list was not used to support the manuscript. <p>I wish you more success and luck.</p>
