

Review Form 1.7

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_117168
Title of the Manuscript:	The Role of Greenhouse Technology in Streamlining Crop Production
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>I think this manuscript is not important enough for the scientific community. The authors have only presented some typical greenhouses, the technologies applied in greenhouses and the farming efficiency in some types of greenhouses. The manuscript title matches the content.</p> <p>The abstract describes the article comprehensively</p> <p>For the current manuscript, the structure and subsections are appropriate.</p> <p>References are quite complete.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>1. Good</p>	
<p>Optional/General comments</p>	<p>The manuscript needs to be rewritten to become a scientific article. The authors need to focus on comparing and evaluating the effectiveness of greenhouses in a specific crop type. Accounting for greenhouse investment costs to compare with revenue from greenhouse crops. Compare the effectiveness of saving water, fertilizer, pesticides, etc. in the greenhouse with growing in the natural environment.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
