<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Is the title of the article suitable? (If not please suggest an alternative title) Is the abstract of the article comprehensive? Are subsections and structure of the manuscript appropriate? Do you think the manuscript is scientifically correct? Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>The paper is interesting and covers an important area of recreational running. The sample size is very small. The cohort is not representative of homogeneous nature of endurance runners by virtue of their high BMI. I recommend maybe the addition of the phrase "recreational runners".</p> <p>Despite these shortcomings, the findings are interesting and should be published. I found that the part needs English language editing before it can be published.</p> <p>Decision: approved for publication after English language editing.</p>	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications?
