Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<ol style="list-style-type: none"> 1. The concept of the work and manuscript ideas can be accepted by the scientific community. but the introduction, research methodology, results and references are very few for publication. 2. Yes, but the title is not detailed enough to describe the text. 3. it's ok 4. it's okay. However, the author only has a little data. It is best to include supporting data in the antifungal test. 5. very weak. The manuscript should be rewritten again to include up to date scientific evidence and supporting literature. 6. Lack of references. Authors must cite all references used in the introduction correctly. There are many reviews that researchers need to do in writing the introductory chapter 	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> 1. Is language/English quality of the article suitable for scholarly communications? 	<p>Authors must cite all references used in the introduction correctly. There are many reviews that researchers need to do in writing the introductory chapter</p>	
<p>Optional/General comments</p>
