

Review Form 1.7

Journal Name:	Current Journal of Applied Science and Technology
Manuscript Number:	Ms_CJAST_116518
Title of the Manuscript:	Study of the Thermo-physical Properties of the Clay of Balkuy Combined with Different Dosage Rates of Millet Pods for the Thermal Insulation of Building Envelopes.
Type of the Article	Research

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>No</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>No</p>	
<p>Optional/General comments</p>	<p>1. The language should be improved.</p> <p>2. The figure 3 and 4 should be improved and all figures should be uniform caption style.</p> <p>3. The reference [6] is not mentioned in the text.</p> <p>4. How the equation (3) is converted to equation (4), please elaborate and signify the term u in equation(3). The equation does not looks like linear and explain it.</p> <p>5. When the % is more than 100, please convert it to multiple times. Ex. i.e. The mechanical strength we obtained increases by xy times when 1% of millet pod is added.....</p> <p>6. The introduction should be elaborated 10 times what is present now and more reference should be added.</p> <p>7. The thermal capacity and conductivity decreases with increase in mass of water, justify.</p>
