

**Editor's Comment:**

After thoroughly reviewing the original and revised manuscripts as well as the reviewers' feedback, I concluded that the reviewers' comments were relevant and helpful in improving the quality of the manuscript. The authors effectively incorporated the reviewers' suggestions, resulting in a more coherent, thorough and more aligned article with the focus of the journal.

Although there are a few minor issues with formatting, table arrangement, citation checking, and language refinement, the manuscript is otherwise comprehensive. In my opinion, the manuscript addresses an important topic and has the potential to have a significant impact on its field of research.

I recommend the acceptance of the manuscript.
