

Review Form 1.7

Journal Name:	Asian Journal of Food Research and Nutrition
Manuscript Number:	Ms_AJFRN_115457
Title of the Manuscript:	Microbes and Food Sustainability in Modern Era Department of Microbiology, Faculty of Biological Sciences University of Cross River State, (UNICROSS), Calabar
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<ol style="list-style-type: none"> 1. Yes, but there is deficiency of information such as the coliform count of the tested <i>Cyperus esculentus</i> L (tiger nuts), 2. The type of <i>E.coli</i> fecal contamination is indicated by <i>E. coli</i> type 1 . 2. The title is not suitable. Possible title could be "Contamination or microbiological quality of nut." 3. For the presented content it suffices. 4. yes 5. The data is not well discussed using relevant literature on food contamination and related health problems. Therefore although the attempt is scientifically correct additional information is required. 6. Additional references on tiger nuts related problems or similar food contamination required. 	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> 1. Is language/English quality of the article suitable for scholarly communications? 	I don't see any language problem.	
<p>Optional/General comments</p>	Although the manuscript is dealing with pertinent food stuff related health problems, I think the data is not sufficient as it is and not well discussed. Therefore addition of relevant information or research data may be necessary to improve the manuscript.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
