|---|---|--|
| <p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p> | <p>This manuscript is based on a comparative research. Therefore, it is very important that the resources that refer to Ama are at the same level and accessible. The respected author has presented research between 1990 and 2020. Meanwhile, in the source section, the most recent accessible source is from 2008!! 11. Vishwakarma, S.B. and Jain C.K. (2008), Transformation of Agriculture and Rural Development, Krishna Publication, Sagar</p> <p>In this way, it is not possible to rely and extract acceptable results: Source: Superintendent Land Record, Damoh Or Source: Directorate of Agriculture M.P Also results from the following table: Table 2 B. Tehsil wise land use pattern in Damoh District (1990-2020) Without including a reliable and available source!</p> <p>In the text of the manuscript: Net sown area increased from 38364 hectares in 1990 to 47835 hectares in 2020 in Hatta tehsil. Without citing the source.</p> <p>The respected author of the manuscript should carefully match the sources with the text and results for more validity. In this way, the manuscript can enter the refereeing and revision process.</p> | |
| <p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p> | Yes | |
| <p>Optional/General comments</p> | | |
