

Review Form 1.7

Journal Name:	Asian Journal of Probability and Statistics
Manuscript Number:	Ms_AJPAS_116630
Title of the Manuscript:	An Improved Product Estimator for Finite Population Mean in the presence of Nonignorable Nonresponse
Type of the Article	Original Research Article

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1. Yes 2. Ok 3. Fine 4. Ok 5. Normal but acceptable 6. Yes</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>English need to improve.</p>	
<p>Optional/General comments</p>	<p>Abstract. Please add some opening lines in abstract that highlights about sampling and then move to your study or development of this study. Add some findings in last two lines of abstract.</p> <p>Introduction. Add one paragraph on sampling and its advantages by cite latest articles on SRS etc and then move to nonresponse. Explain why you are estimating population mean and why not other parameters. Before methodology add a paragraph that explains the sequence of remaining sections.</p> <p>Shift Notations before methodology section.</p> <p>Results Results are well explain and shown in tables. If possible add PRE (percentage relative efficiency in Table 16)</p> <p>Conclusion Add Limitations of this study</p> <p>Add some latest references, some are my suggestions Hafeez, W., & Shabbir, J. (2015). Estimation of the finite population mean, using median based estimators in stratified random sampling. <i>Journal of Statistics Applications & Probability</i>, 4(3), 367.</p> <p>Ahmed, S., Shabbir, J., & Hafeez, W. H. (2016). Hurwitz estimator with scrambled response on second call in stratified random sampling. <i>Journal of Statistics Applications & Probability</i>, 5(2), 1-13.</p>	

Review Form 1.7

	Hafeez, W., Shabbir, J., Shah, M. T., & Ahmed, S. (2020). Some median type estimators to estimate the finite population mean. <i>Asian Journal of Probability and Statistics</i> , 7(4), 48-58.
